

## **The Healer's Covenant"**

### **The Healer's Covenant**

- **To treat every wound as worthy of attention.**
- **To maintain cleanliness even when chaos tempts neglect.**
- **To guard the weak without resentment.**
- **To speak gently, because fear worsens illness.**
- **To rest when needed, so care does not become martyrdom.**
- **To remember that healing is a shared burden—not a solitary weight.**

***This covenant reminds the family that medical care is not only practical, but moral.***
